

AI & DATA USE POLICY

CHEGE PUBLISHING (PTY) LTD • African Power, Mining & Oil Review (APMO Review) • APMORReview.com

AI & DATA USE POLICY

Effective date: 11 September 2026

1. PURPOSE

This Policy governs responsible use of artificial intelligence and data-processing technologies by CHEGE PUBLISHING (PTY) LTD in connection with African Power, Mining & Oil Review (APMO Review) magazine and APMORReview.com.

2. HUMAN RESPONSIBILITY

AI may assist with research, transcription, translation, summarisation, data analysis, ideation or drafting, but a responsible human remains accountable for published editorial material.

3. VERIFICATION

AI-generated facts, quotations, statistics, names, dates, citations and claims must be checked before publication.

4. CONFIDENTIAL INFORMATION

Confidential, privileged or sensitive information should not be entered into AI systems unless the relevant use is authorised and appropriate safeguards are in place.

5. PERSONAL INFORMATION

Personal information should not be processed through AI tools without an appropriate lawful basis and safeguards.

6. SOURCE INTEGRITY

AI must not be used to fabricate sources, interviews, quotations, evidence or images in a way that misleads readers.

7. IMAGES AND SYNTHETIC MEDIA

Materially altered or synthetic media should not be presented as authentic documentary material. Appropriate labelling should be used where necessary.

8. COPYRIGHT

AI use must respect copyright, licences, confidentiality and other intellectual-property rights. Bulk ingestion of APMO Review content into external AI systems is not authorised merely because the content is publicly accessible.

9. DATASETS AND SCRAPING

Automated extraction, dataset creation or machine-learning use of APMO Review content requires a lawful basis and, where applicable, permission or licence.

10. ADVERTISING AND SPONSORED CONTENT

AI-assisted commercial content remains subject to the Advertising and Sponsored Content Policies.

11. REVIEW

This Policy will be updated as AI technology, law and industry standards develop.
